

# Indian Rest South Maintenance Map 2020.06.15

## Spring maintenance

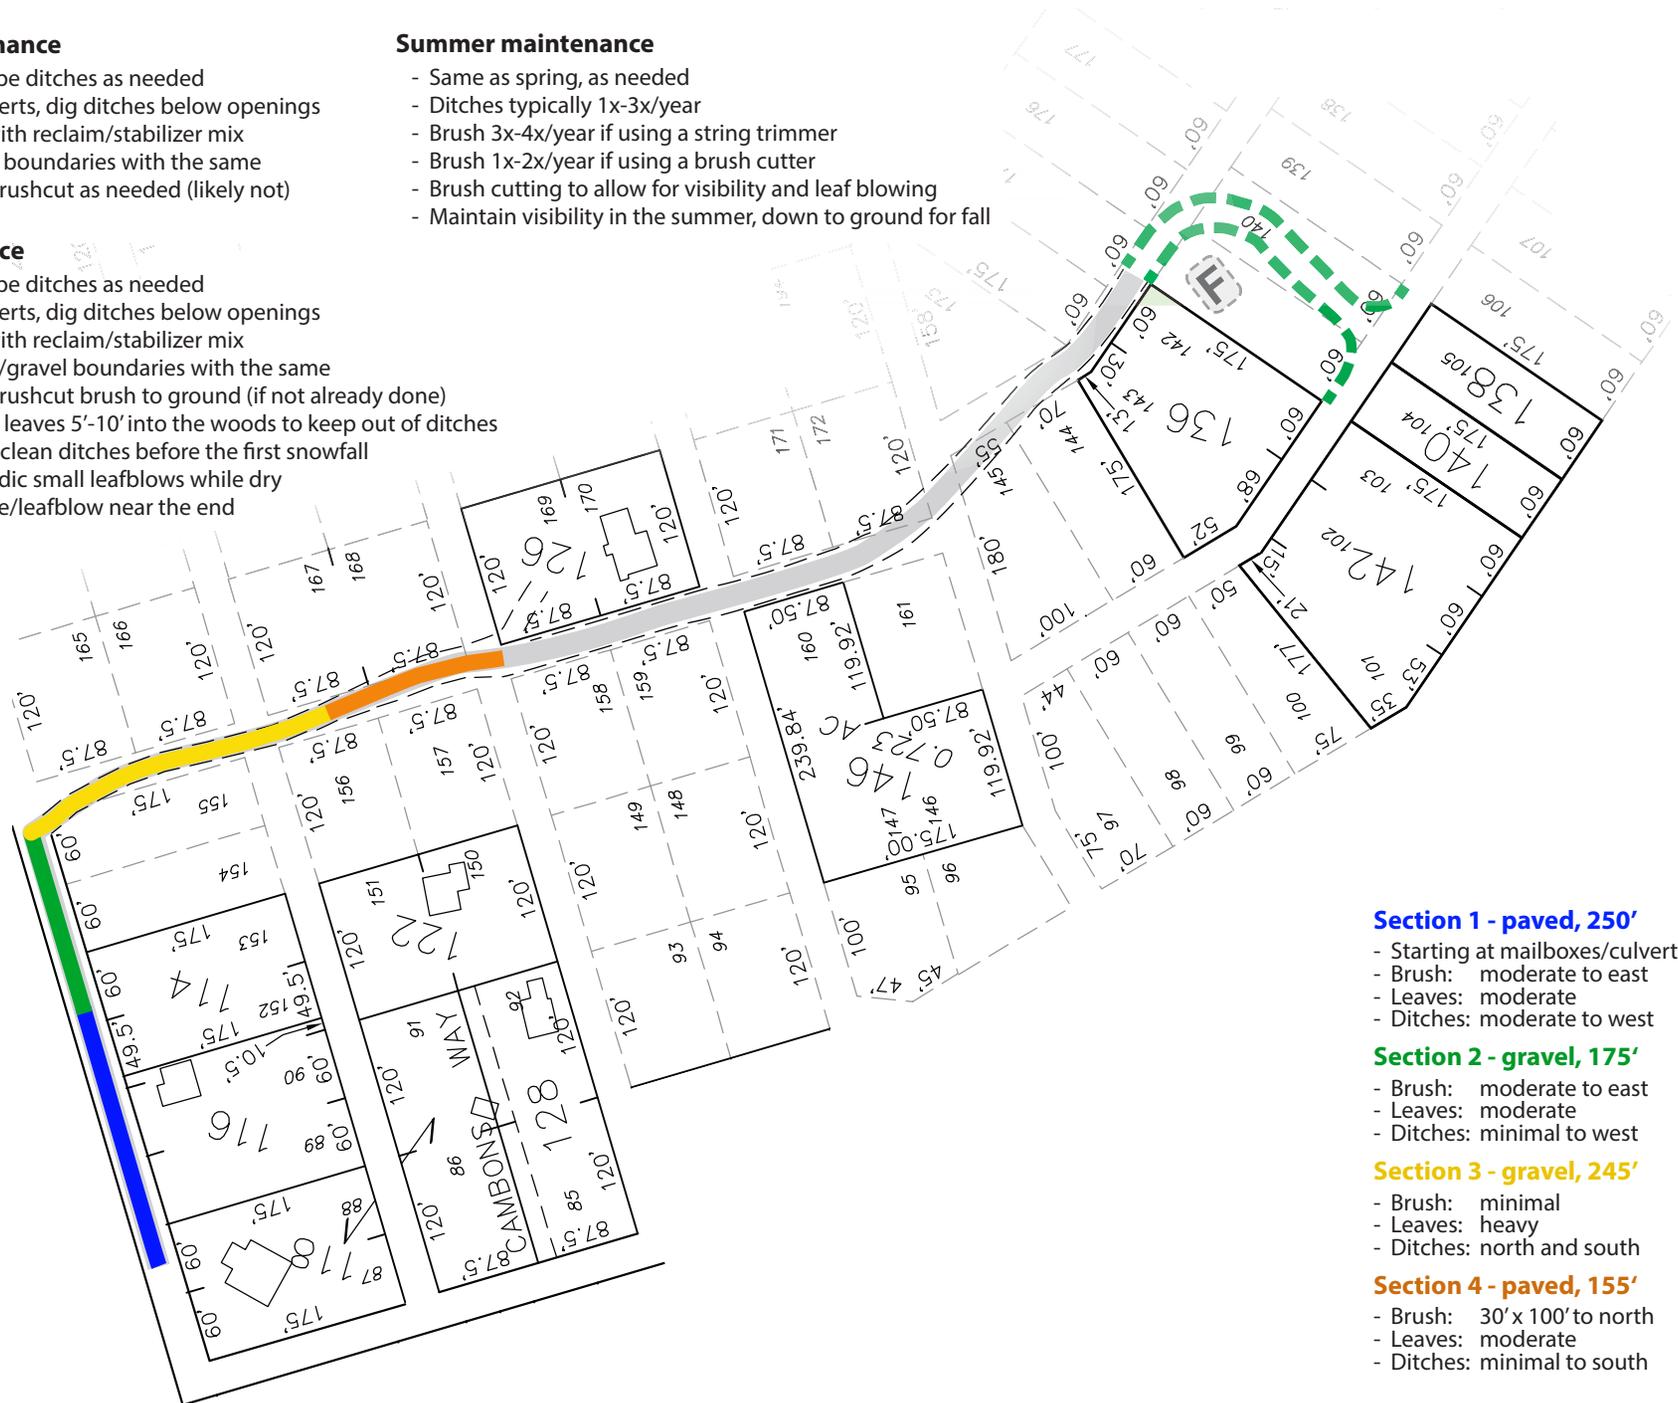

- Dig out, reshape ditches as needed
- Clean out culverts, dig ditches below openings
- Fill potholes with reclaim/stabilizer mix
- Repair asphalt boundaries with the same
- Weedwhack/brushcut as needed (likely not)

## Summer maintenance

- Same as spring, as needed
- Ditches typically 1x-3x/year
- Brush 3x-4x/year if using a string trimmer
- Brush 1x-2x/year if using a brush cutter
- Brush cutting to allow for visibility and leaf blowing
- Maintain visibility in the summer, down to ground for fall

## Fall maintenance

- Dig out, reshape ditches as needed
- Clean out culverts, dig ditches below openings
- Fill potholes with reclaim/stabilizer mix
- Repair asphalt/gravel boundaries with the same
- Weedwhack/brushcut brush to ground (if not already done)
- Rake/leafblow leaves 5'-10' into the woods to keep out of ditches
- Bare road and clean ditches before the first snowfall
- Could be periodic small leafblows while dry
- Or one big rake/leafblow near the end

### Section 1 - paved, 250'

- Starting at mailboxes/culvert
